

Dr. Matthew Hardwick Joins TIPS

Matthew brings to TIPS leading experience in study design and antimicrobials

Hamilton, Ontario – August 9, 2023 – The Infection Prevention Strategy (TIPS) is pleased to announce that Dr. Matthew Hardwick has joined TIPS as an advisory board member, study design lead and key segment advisor.

"Dr. Hardwick brings extensive experience in study design that will help countless innovations enrolled in the TIPS Science to Market® program establish critical evidence-based science" - Michael Diamond, Executive Director, TIPS

Dr. Hardwick is a thought leader in the field of infection prevention in the healthcare environment of care and is an expert in antimicrobial surface technologies. He has 20 years of academic research experience, at Georgetown University where he completed his PhD in Cell Biology, and at Johns Hopkins University, where he completed 2 postdoctoral fellowships, one in the Bloomberg School of Public Health and the second in the James Buchanan Brady Urological Institute. Dr. Hardwick's last academic appointment was with the MedStar Health Research Institute where he worked on numerous research initiatives including the use of antimicrobial surfaces in clinical healthcare environments. Matthew is widely published, including several articles on the use of antimicrobials in clinical environments and the role of microbial surface contamination on infection rates in clinical settings.
